1. As a regular practice followed every year, this session began with the Orientation Programme for the students of classes I to XI. The programme made the parents aware of the scheme of education we impart here at our school. Query-resolving session by a child psychologist illuminated the path of positive parenting.
2. Having the school completely digitized has innumerable advantages to the parents, teachers and the school itself :- Parents have a direct access to communicate with the Class-Teacher for regular update of their child and the cases which need my personal attention can be escalated directly to me through the provision of communicate in our portal. Parents and teachers have been brought closer as this software provide a direct upload of the daily homework on the online portal parallel to what's given in the classroom, so that parents too are apprised of the daily homework given in classroom and the same can be enforced at the parents' end too.
3. As a new endeavour, we took a giant leap in the examination procedure this year by replacing the conventional regime of manually prepared Reports-cards by the teachers with Computer Generated Report-Cards. This transformation minimized the efforts of the teachers to manually fill in the Report-Cards all by themselves.

Attendee teachers further share the knowledge with other fellow teachers widening the sphere of wisdom.
